

## Program of Asia/Africa 5th Seminar in Hanoi, Vietnam

7/20	City and University Tour / Reception
7/21	
9:45	Opening Address Prof. HA Duyen Tu, Vice president of Science and International Affairs, Hanoi University of Technology, Vietnam Prof. Shigeru KUNUGI, Vice president of Kyoto Institute of Technology, Japan
10:00	Keynote Lecture Prof. QUI Tran Cong -Miyata Kyoto Institute of Technology, Japan "Co-continuous Morphologies of Polymer Blends: Generation, Design and Practical Applications"
11:00	Prof. John H. XIN Hong Kong Polytechnic University, Hong Kong "Synthesis and application of novel flame retardant containing phosphorus and silicon for cotton"
11:30	Prof. VU Hong Khanh Hanoi University of Technology, Vietnam "Research on production and utilization of anti-bacteria textile materials in Vietnam"
12:00	Lunch
14:00	Prof. Yoshikazu YAMASAKI Kyoto Institute of Technology, Kyoto, Japan "Recent Development of Chemical Fiber and Textile in Japan"
14:30	Dr. NGO Chi Trung Hanoi University of Technology, Vietnam "Modeling of Thermal and Water vapor Transfer through Clothing and Application"
15:00	Coffee Break
15:20	Dr. Ding Xin Bo Zhejiang Sci-Tech University, P. R. China "Morphology and Damping Properties of an Organic Nanocomposite of Chlorinated Polyethylene and Small
15:50	Dr. Yasser Mohamed Eid Hassan Helwan University, Helwan, Egypt "Application of Phase Change Materials in Textiles for Thermal Insulation"
16:20	Poster Presentation
7/22	
9:00	Prof. Ho-Suk Choi Chungnam National University, Korea "Conducting Polymer Coating Films Fabricated by Graft Copolymerization of Aniline on Poly (acrylic acid) Grafted Poly(ethylene terephthalate) Surfaces"
9:30	Dr. Nguyen Huy Tung Hanoi University of Technology, Vietnam "Properties of hybrid composite based on glass and jute fiber"
10:00	Prof. Hideto SHOENNI Kumamoto University, Japan "Preparation of Microcapsules Using Microreactor Method"
10:30	Dr. Yi ZHONG Donghua University, Shanghai, P. R. China "Clean dyeing of Polyester using microencapsulated disperse dyes in the absence of auxiliaries"
11:00	Prof. Seung Jin KIM Yeungnam University, Korea "Spinning of the Sheath/Core Nylon/PET Composite Yarns and Eluted Fabric Mechanical Properties of Nylon"
11:30	Lunch
13:30	Prof. Masatsugu MOCHIZUKI Kyoto Institute of Technology, Japan "Current Status and Future Outlook of Poly(lactic acid) (PLA) as an Advanced Bio-based Material"
14:00	Prof. TA Phuong Hoa Hanoi University of Technology, Vietnam "Materials based on cellulose micro-fiber extracted from bamboo"
14:30	Closing Remark and the Announcement of 6th Seminar in Kyoto Prof. Tetsuya SATO Kyoto Institute of Technology, Japan
15:00	Technical Tour to Silk Village
	Banquet
