

The Future of 'Neo-Fiber Technology'
for Collaborative Research in Asia and Africa

JSPS AA Science Platform Program on Neo-Fiber Technology
Seminar Series 6

1st - 4th December 2009

Kyoto Institute of Technology, Kyoto, Japan

General Chair: Prof Yoshiharu KIMURA
Kyoto Institute of Technology (Japan)

Hosted by:  Kyoto Institute of Technology

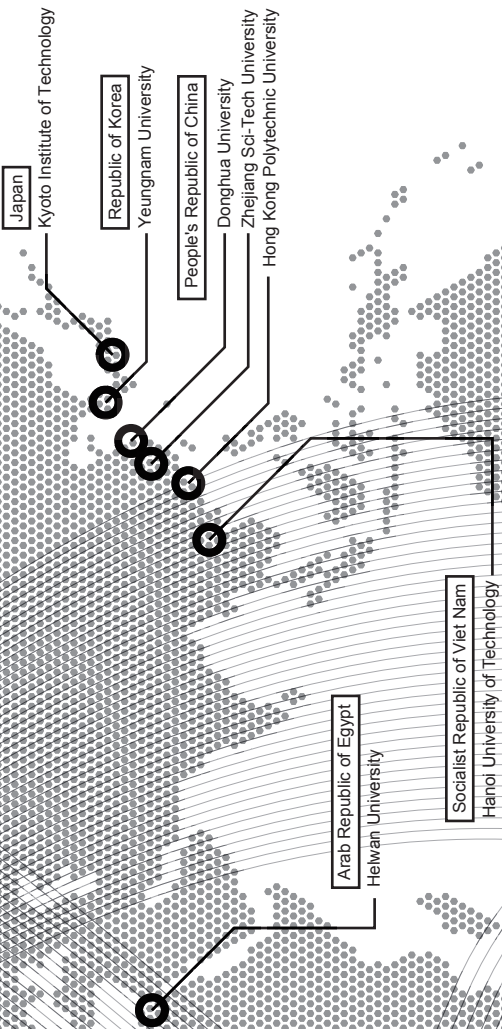

Funded by:  Japan Society for the Promotion of Science (JSPS)

Access Map

Kyoto Institute of Technology

Matsugasaki, Sakyo-ku, Kyoto 606-8585 JAPAN
Phone : +81 75 724 7128 Fax : +81 75 724 7710

From Airports to Kyoto Station

By Underground
Take Karasuma line Underground bound for "Kokusai Kaikan" Station, get off at "Matsugasaki" Station, and walk to east for about 8 min.

- K 1** KOKUSAI KAIKAN
- K 2** MATSUGASAKI
- K 3** KITAYAMA
- K 4** KITAOJI
- K 5** KURAMAGUCHI
- K 6** IMADEGAWA
- K 7** MARUTAMACHI
- K 8** KARASUMA GIKE
- K 9** SHIJO
- K 10** GOJO
- K 11** KYOTO

Outline of JSPS's AA Science Platform Program

This program is designed to create high potential research hubs in selected fields within the Asian and African region, while fostering the next generation of leading researchers. It is accomplished by establishing sustainable collaborative relations among universities and research institutes in Japan and other Asian and African countries. Under the program, these "core institutions" will collaborate in research fields of special importance or significance to Asia and Africa and that is deemed to be of high priority within Japan.

Neo-Fiber Technology Objective

Building a firm and consolidated platform of science and engineering is essential for social development of Asian and African countries in this century. Particularly, the platform for the fiber science of the next generation is important in these countries that have already become the world center of fiber and textile production. In order to establish such a scientific platform, the leading countries of the "core institutions" should cooperate with each other and promote the fast innovation. An efficient platform for advanced fiber science will possibly be formed by joint work in the university levels that are based on research and education. This program proposes the creation of platform for "neo-fiber technology" by interactive activities of several universities selected from five countries in Asia and Africa.

Invited Speakers

Shuilin CHEN
Donghua University, China

Kevin CHEUK
Hong Kong Polytechnic University, China

Yoshiharu KIMURA
Kyoto Institute of Technology, Japan

Kang KOO
Yeungnam University, Korea

Danian LU
Donghua University, China

Satoko OKUBAYASHI
Kyoto Institute of Technology, Japan

Mohammad SABRY
Helwan University, Egypt

Thi Phuong Hoa TA
Hanoi University of Technology, Viet Nam

John H. XIN
Hong Kong Polytechnic University, China

Hideki YAMANE
Kyoto Institute of Technology, Japan

Yuyuan YAO
Zhejiang Sci-Tech University, China

Hidekazu YASUNAGA
Kyoto Institute of Technology, Japan

Call for Posters

Bio-base Materials
Fashion and Textile Design
Fashion Business
Fiber Materials
Knitting Technology
Polymer Science
Textile Branding
Textile Dyeing
Textile Engineering
Textile Finishing
Textile Marketing

General Chair

Yoshiharu KIMURA
Director of The Center for Fiber and Textile Science
Kyoto Institute of Technology

Universities

Japan:
Kyoto Institute of Technology

Arab Republic of Egypt:
Helwan University

People's Republic of China:
Donghua University
Zhejiang Sci-Tech University
Hong Kong Polytechnic University

Republic of Korea:
Yeungnam University

Socialist Republic of Viet Nam:
Hanoi University of Technology

Local Organizing Committee

Takashi AOKI
Shinichi SAKURAI
Tetsuya SATO
Hideki YAMANE
Hidekazu YASUNAGA
Kyoto Institute of Technology

Secretariat

Tetsuya SATO
Tel & Fax : +81-75-724-7578
e-mail : tsato@kit.ac.jp
The Center for Fiber and Textile Science

This seminar is supported by
The fund of JSPS AA Science Platform Program
